## RELEVANT EXPERIENCE

### **The Iron Yard** — *Back End Student*

FEBRUARY 2017 - MAY 2017

Enrolled in immersive course to learn back end engineering focused on Python and Django. Completed over 20 projects using several technologies. Currently working on prototype for **Masterpeace**, our capstone project. It's a web app that allows artists to share their work in an environment based on solely positive feedback. Implements Python, Django REST Framework, PostgreSQL, Foundation, and AJAX.

## WORK EXPERIENCE

### **Montfort College Primary Section**, Chiang Mai, Thailand *Teacher*

OCTOBER 2015 - OCTOBER 2016

English teacher for four classes of 51 third grade students. Made daily lesson plans, worksheets and powerpoints. Wrote and administered exams to test proficiency and growth. In charge of grading and adhering to standards and curriculum set by school.

### **PayJunction**, Santa Barbara, CA – *Sales Recruiter*

JUNE 2014 - NOVEMBER 2014

Evaluated resumes for sales-specific roles, while also utilizing phone calls and other recruiting efforts to fill open requisitions. Handled incoming calls and questions regarding reseller position and product.
