RELEVANT EXPERIENCE

The Iron Yard — *Back End Student*

FEBRUARY 2017 - MAY 2017

Learned back end engineering focusing on Python and Django framework. Completed over 20 projects using several technologies. Currently working on prototype for **Masterpeace**, a capstone project. Web application that allows artists to share their work in an environment based on solely positive feedback. Implements Python, Django REST Framework, PostgreSQL, and AJAX.

WORK EXPERIENCE

Montfort College Primary Section, Chiang Mai, Thailand *Teacher*

OCTOBER 2015 - OCTOBER 2016

English teacher for four classes of 51 third grade students. Made daily lesson plans, worksheets and powerpoints. Wrote and administered exams to test proficiency and growth. Led grading and adhering to standards and curriculum set by school.

PayJunction, Santa Barbara, CA – *Sales Recruiter*

JUNE 2014 - NOVEMBER 2014

Evaluated resumes for sales-specific roles, while also utilizing phone calls and other recruiting efforts to fill open requisitions. Handled incoming calls and questions regarding reseller position and product.
